

**MY COMMENTS REGARDING MY EXPERIENCE WITH NATIONAL TAX TRAINING SCHOOL:**

*Reading the IRS Handbook can be very taxing, but reading the NTTS tax binder is motivating. The NTTS Federal Income Tax Course is written and organized by topic ranging from the very basic to more complex subjects. Each lesson is comprehensive with highlights and tax tips. Each lesson has Self-Assessment Practice Test which serves as a yardstick of comparison to how much a user has retained from each topic. Therefore, a user may use it as an alert to not cut corners because there is an online quiz and exam after each lesson.*

*My years of tax experience with multi-entity Fortune 500 companies were focused on domestic and international corporation tax compliance. Now that I am semi-retired, my goal is to have my own tax practice and work part-time as a Registered Tax Preparer for small businesses and individuals. The NTTS tax binder will serve as my go-to reference when I start my tax practice. It will be displayed in my library together with my CCH & RIA books.*

*I thank the school staff, the professors, and especially Professor Jacob Ehrenpreis for their outstanding support and professional guidance. I highly recommend NTTS to anyone who desires to know more about the intricacies of tax or to tax professionals for their continuing education.*
